

## **Polyclonal rabbit antibody anti-human collagen type I/III**

### **Description**

Polyclonal rabbit antibody anti-human collagen type I and III

**Catalog Number** 198

**Amount** 0.05 mg

### **Specificity**

Binds native 3D epitopes of human collagen type I and III. Cross-reactivity to other human collagens as measured by ELISA type IV below 3%, type V below 2%.

### **Preparation**

Affinity purification on immobilized human collagen type I and III with cross-absorption to immobilised human blood plasma proteins and human collagen type II, IV and V.

### **Format**

Purified and lyophilized. Contains mannitol, dextran and salts

### **Applications and recommended dilutions**

Detection of human collagen in ELISA (x4000), Histochemistry (frozen sections) (x30), Immunostaining of ECM in human cell cultures. Not suitable for denaturing and dissociating conditions.

### **Reconstitution**

Use 0.5 ml sterile pure water

### **Storage**

Shipping at ambient temperature. Storage of lyophilized antibodies 2 years at -20°C or lower

RESEARCH USE ONLY. NOT FOR USE IN DIAGNOSTIC, DRUG OR HOUSEHOLD USE
