

## **Polyclonal rabbit antibody anti-human Collagen type V**

### **Description**

Polyclonal rabbit antibody to human Collagen type V (placenta)

**Catalog Number** 201

**Amount** 1 ml (0.1 mg)

### **Specificity**

Binds native 3D epitopes of Human Collagen type V. No cross-reactivity to other human collagens. No cross-reactivity to human plasma proteins

### **Preparation**

Affinity purification on immobilized Collagen type V with cross-absorption to immobilised human blood plasma proteins and human collagen type I, II, III and IV. Overall process is designed to obtain a high purity type-specific antibody to native 3D collagen.

### **Format**

Purified and lyophilized. Contains mannitol, dextran and salts

### **Applications and recommended dilutions**

ELISA (x3000), Histochemistry (frozen sections) (x20). Not suitable for denaturing and dissociating conditions

### **Reconstitution**

Use 1 ml sterile pure water

### **Storage**

Shipping at ambient temperature. Storage of lyophilized antibodies for 2 years at -20°C or lower

RESEARCH USE ONLY. NOT FOR USE IN DIAGNOSTIC, DRUG OR HOUSEHOLD USE
